

Lecture 6: 737-MAX Casestudy

17-313

Learning Goals

- Understand issues around the Boeing 737 Max problems, and discuss how to avoid them
- Consider real and hypothetical solutions, and discuss when they are appropriate

Administrivia

- Project 2A: Due tonight
 - Feel free to ask scope-related questions on #projects
- Team self-assessments due tomorrow (please fill every week!)
- Next Tuesday (Sep 19): An exciting workshop on continuous deployment
 - Bring your laptop. If possible, sit near your team (or make new friends).
 - This week's recitation important pre-req.
 - Try to get basic-web-app deployed on at least one of Render or GCP. Will use the running app in Tuesday lecture.

Discussion

Activity: If you missed class, be prepared to discuss

- Facts of the case
- Relationships between facts
- Lessons learned from this case
